

Transgender students position statement.

We believe that everyone must be equally valued at our schools. We strive to eliminate prejudice and discrimination, and to develop environments where all can flourish and feel safe.

Gosforth Group is committed to inclusion – we make every effort to develop cultures, policies and practices that allow people to thrive. We aim to engender a sense of community and belonging, and to offer fresh opportunities to learners who may have experienced previous difficulties. This does not mean that we will treat everyone the same way, but that we will respond to people as individuals; in ways that respect their varied life experiences and needs.

While we await guidance from the Department for Education our actions are informed by the November 2022:

Guidance for maintained schools and academies in England on provision for transgender pupils

formulated by ASCL, CCT, CST, ISBL, NAHT and NGA.
