## Analysing and Displaying Data

| Topic | Rationale | Knowledge Acquisition | Key Vocabul ary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Analysing and Displaying Data | The ability to organise, rationalise, understan $d$ and interpret data in different formats is an important skill both mathemati cally and in many realworld scenarios. | Group data, where appropriate in equal class intervals | Mode, modal, dual bar chart, compou nd bar chart, frequen cy, frequen cy diagra m, twoway table | Use and interpret a wide range of different data formats. Develop a critical eye to ascertain when data is misreprese nted (e.g in misleading advertisem ents) |
|  |  | Calculate the mean of a set of data |  |  |
|  |  | Calculate the mean from a simple frequency table |  |  |
|  |  | Interpret data from compound and comparative bar charts |  |  |
|  |  | Use two way tables for discrete data |  |  |
|  |  | Compare two distributions given summary statistics in simple cases |  |  |
|  |  | Construct on paper and using ICT simple pie charts using categorical data - e.g. two or three categories |  |  |
|  |  | Use simple two way tables |  |  |
|  |  | Construct a frequency diagram from a grouped frequency table |  |  |
|  |  | Interpret and / or compare bar graphs and frequency diagrams which are misleading (with false origins, different scales etc.) |  |  |
|  |  | Interpret scatter graphs |  |  |
|  |  | Construct scatter graphs |  |  |
|  |  | Recognise when it is appropriate to use mean median or mode. (put in extreme values) |  |  |
|  |  | Use correlation to describe relations between sets of data in simple cases |  |  |
|  |  | Find the modal class of a set of continuous data |  |  |
|  |  | Construct and use line graphs for time series to compare several sets of data |  |  |
|  |  | Understand inequality notation for grouped frequency tables, e.g. $0 \leq k<2$ |  |  |
|  |  | Compare two distributions using the appropriate statistics |  |  |
|  |  | Identify key features of data sets described in either line graphs or scatter graphs including correlation |  |  |
|  |  | Use correlation to describe relations between sets of data |  |  |
|  |  | Draw a line of best fit by eye |  |  |
|  |  | Use a line a best fit drawn by eye to estimate the missing value in a two variable data set |  |  |

## Number Skills

| Topic | Rationale | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Number Skills | This section will deepend understand ing of numbers and the numbers system and show how primes can be used to factor large numbers | Understand the difference between multiples, factors and primes | are, cube, factor, ultiple, root |  |
|  |  | Find factor pairs using any whole number |  |  |
|  |  | Divide three-digit by two-digit whole numbers |  |  |
|  |  | Use rounding to the nearest 10 or a nice number, e.g. 62 to 63 when dividing by 9 |  |  |
|  |  | Find the HCF or LCM of two numbers less than 20 |  |  |
|  |  | Add and subtract positive and negative integers |  |  |
|  |  | Give the positive and negative square root of a square number |  |  |
|  |  | Extend mental calculations to squares and square roots |  |  |
|  |  | Estimate square roots of non-square numbers less than 100 |  |  |
|  |  | Work with calculations where the brackets are squared or square rooted |  |  |
|  |  | Multiply and divide positive and negative integers |  |  |
|  |  | Use index notation for small integer powers e.g. $3 \times 2^{3}=24$ |  |  |
|  |  | Extend calculations to cubes and cube roots, using mental methods and a calculator when appropriate |  |  |
|  |  | Estimate answers to calculations involving two or more operations and BIDMAS |  |  |
|  |  | Find square roots by factorising, e.g. square root of 324 is square root of $4 \times 81$ which is $18.324=4 \times 81$ should be given to them |  |  |
|  |  | Combine laws of arithmetic for brackets with mental calculations of cubes and squares |  |  |
|  |  | Find cube roots by factorising, e.g. cube root of 216 is cube root of $8 \times 27$ which is 6. $216=8 \times 27$ should be given to them |  |  |
|  |  | Combine laws of arithmetic for brackets with mental calculations of cube roots and square roots |  |  |
|  |  | Understand which part of an expression is raised to a power by knowing the difference between $3 \times(7+8)^{2}$ and $3^{2} \times(7+8)$ and $(3 \times(7+8))^{2}$ |  |  |

| Topic | Rationa le | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Equatio ns <br> Functio ns and Formula e |  | Substitute positive integers into simple formulae expressed in word |  |  |
|  |  | Derive simple formula expressed in letter symbols |  |  |
|  |  | Construct expression from worded descriptions using addition, subtraction, multiplication and division |  |  |
|  |  | Construct expressions from worded descriptions using all four basic operations |  |  |
|  |  | Begin to multiply a positive integers over a bracket containing linear terms |  |  |
|  |  | Substitute integers into more complex formulae expressed in letter symbols |  |  |
|  |  | Substitute integers into more complex formula expressed in letter symbols |  |  |
|  |  | Know that the contents of brackets are evaluated first when using algebra |  |  |
|  |  | Derive more complex formula expressed in letter symbols |  |  |
|  |  | Simplify simple expression by collecting like terms |  |  |
|  |  | Substitute positive and negative integers into simple formula |  |  |
|  |  | Know that multiplication and division are carried out before addition and subtraction |  |  |
|  |  | Understand the difference between $2 n$ and $n^{2}$ |  |  |
|  |  | Know that expressions involving repeated addition can be written as $n^{2}, n^{3}$ etc. |  |  |
|  |  | Simplify simple expressions involving power but not brackets by collecting like terms |  |  |
|  |  | Multiply a single term over a bracket |  |  |
|  |  | Add, subtract, multiply and divide integers - extend to the distributive law |  |  |
|  |  | Evaluate an expression by substituting a positive value into the expression $x^{2}$ |  |  |
|  |  | Substitute positive integers into expressions involving small powers |  |  |
|  |  | Use the distributive law to take out numerical common factors |  |  |
|  |  | Derive complex algebraic expression and formula |  |  |

| Topic | Rationale | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Fractions |  | Simplify fractions by cancelling all common factors |  |  |
|  |  | Calculate simple fractions of quantities and measurements (whole number answers) |  |  |
|  |  | Calculate fractions of quantities and measurements (fraction answers) |  |  |
|  |  | Add and subtract simple fractions with denominators of any size |  |  |
|  |  | Multiply a fraction by an integer |  |  |
|  |  | Recall of equivalent fractions and decimals and percentage including for fractions that are greater than 1. |  |  |
|  |  | Use division to convert a fraction to a decimal |  |  |
|  |  | Add mixed-number fractions without common denominators, where the fraction parts add up to more than 1 |  |  |
|  |  | Subtract mixed-number fractions when the fractional part of the first fraction is all that is required for the calculation to take place |  |  |
|  |  | Be able to enter time as a mixed number into a calculator |  |  |
|  |  | Use fraction notation to express a smaller whole number as a fraction of a larger one |  |  |
|  |  | Divide an integer by a fraction |  |  |
|  |  | Multiply a fraction by a fraction (without cancelling) |  |  |
|  |  | Cancel common factors before multiplying fractions |  |  |
|  |  | Multiply an integer by a mixed number |  |  |
|  |  | Divide a mixed number by a fraction |  |  |

| Topic | Rationa le | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Angles and Shapes |  | Identify all the symmetries of 2D shapes |  |  |
|  |  | Identify and begin to use angle, side and symmetry properties of quadrilaterals |  |  |
|  |  | Find co-ordinates of points determined by geometric information |  |  |
|  |  | Solve simple geometrical problems showing reasoning |  |  |
|  |  | Recognise and use vertically opposite angles |  |  |
|  |  | Calculate angles in a triangle |  |  |
|  |  | Solve geometric problems using side and angle properties of equilateral and isosceles triangles |  |  |
|  |  | Identify alternate angles |  |  |
|  |  | Identify corresponding angles |  |  |
|  |  | Classify quadrilaterals by their geometric properties |  |  |
|  |  | Identify alternate and corresponding angles on the same diagram |  |  |
|  |  | Calculate the interior and exterior angles of regular polygons |  |  |
|  |  | Use the interior and exterior angles of regular and irregular polygons |  |  |

| Topi <br> c | Ratio nale | Knowledge Acquisition | Key Vocabul ary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Deci mals |  | Subtract integers and decimals with up to two decimal places, but with varying numbers of significant figures |  |  |
|  |  | Extend the percentage calculation strategies with jottings to find any percentage e.g. 17\% by finding $10 \%, 5 \%$ and $2 \%$ and adding |  |  |
|  |  | Express one given number as a percentage of another |  |  |
|  |  | Recall of equivalent fractions, decimals and percentage including for fractions that are greater than 1. |  |  |
|  |  | Understand where to position the decimal point by considering equivalent calculations which are given not the basic table fact e.g. $0.06 \times 70=4.2$, what is $0.6 \times 0.007$ |  |  |
|  |  | Add and subtract more than two integers or decimals with up to two decimal places, but with varying numbers of significant figures and using a mixture of operations within the calculation |  |  |
|  |  | Order positive decimals as a list with the smallest on the left. Decimals should be to 4 or 5 significant figures |  |  |
|  |  | Round decimals to the nearest two decimal places |  |  |
|  |  | Find the outcome of a given percentage decrease |  |  |
|  |  | Use a unitary method e.g. if $£ 40$ is $60 \%$ find $1 \%$ by dividing by 60 and then $100 \%$ by multiplying by 100 |  |  |
|  |  | Order negative decimals as a list with the smallest on the left. Decimals should be to 2 or 3 significant figures |  |  |
|  |  | Divide integers and decimals including by decimals such as 0.6 and 0.06 divisions related to $0 . t \times 0 . t$ or $0 . \mathrm{t} \times 0.0 \mathrm{~h}, 0.0 \mathrm{~h} \times 0 . \mathrm{t}$ and $0.0 \mathrm{~h} \times 0.0 \mathrm{~h}$ |  |  |
|  |  | Multiply and divide by decimals, dividing by transforming to division by an integer |  |  |

| Topic | Ration ale | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Equati ons |  | Solve simple linear equations with integer coefficients, of the form $a x=b$ or $x+/-b=c$, e.g. $2 x=18, x+7=12$ or $x-3=15$ |  |  |
|  |  | Substitute integers into algebra formulae and solve for missing values one-step equations) |  |  |
|  |  | Solve simple two-step linear equations with integer coefficients, of the form $a x+b=c$, e.g. $3 x$ $+7=25$ |  |  |
|  |  | Solve simple two-step linear equations with negative $x$ coefficients, of the form $a x+b=c$ |  |  |
|  |  | Construct a one-step equation and solve |  |  |
|  |  | Solve linear equations of the form $a x+/-b=c x+/-\mathrm{d}$ |  |  |
|  |  | Construct a two-step equation and solve |  |  |
|  |  | Substitute integers into formulae to give equations and solve |  |  |
|  |  | Solve equations of the form $a(x+/-b)=c(x+/-d)$ |  |  |
|  |  | Find a positive and negative square root as a solution of an equation involving $x^{2}$ |  |  |
|  |  | Construct and solve linear equations of the form $a x+/-b=c x+/-d$ |  |  |
|  |  | Find a cube root as a solution of an equation involving $x^{3}$ |  |  |
|  |  | Construct and solve equations of the form $a(x+/-b)=c(x+/-d)$ |  |  |
|  |  | Use systematic trial and improvement to find the approximate solution to one decimal place of equations such as $x^{3}=29$ |  |  |

| Topic | Ration ale | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Multiplicative Reasoning |  | Divide a quantity into two parts in a given ratio, where ratio given in ratio notation |  |  |
|  |  | Reduce a ratio to its simplest form |  |  |
|  |  | Reduce a three part ratio to its simplest form by cancelling |  |  |
|  |  | Simplify a ratio expressed in different units |  |  |
|  |  | Understand the relationship between ratio and proportion (convert proportions to ratios) |  |  |
|  |  | Use the unitary method to solve simple word problems involving ratio and direct proportion |  |  |
|  |  | Divide a quantity into more than 2 parts in a given ratio |  |  |
|  |  | Simplify a ratio expressed in fractions or decimals |  |  |
|  |  | Compare ratios by changing them to the form 1:n or $n: 1$ |  |  |
|  |  | Use proportional reasoning to solve best buy problems |  |  |
|  |  | Solve inverse proportion problems e.g. 'it takes 2 men 3 hours...' |  |  |
|  |  | Use the language of ratios and the associated calculations to the arithmetic of fractions and to linear functions |  |  |

| Topic | Rationale | Knowledge Acquisition | Key <br> Vocabulary | Skills and Enrichment |
| :---: | :---: | :---: | :---: | :---: |
| Perimeter, area and volume |  | Calculate the surface area of simple cuboids (without use of nets) |  |  |
|  |  | Calculate the perimeter and area of shapes made from rectangles |  |  |
|  |  | Use a formula to calculate the area of triangles |  |  |
|  |  | Know the formulae for the volume of cube and a cuboid |  |  |
|  |  | Calculate areas of compound shapes made from rectangles and triangles |  |  |
|  |  | Deduce and use the formula for the area of a parallelogram |  |  |
|  |  | Convert between area measures (e.g. $\mathrm{mm}^{2}$ to $\mathrm{cm}^{2}, \mathrm{~cm}^{2}$ to $\mathrm{m}^{2}$, and vice versa) |  |  |
|  |  | Convert between volume measures (e.g. $\mathrm{mm}^{3}$ to $\mathrm{cm}^{3}, \mathrm{~cm}^{3}$ to $\mathrm{m}^{3}$, and vice versa) |  |  |
|  |  | Deduce a formula for the area of a trapezium |  |  |
|  |  | Calculate surface areas of shapes made from cuboids, for lengths given as whole numbers |  |  |
